FREEDOM BEGINS AT HOME

At VOX, we believe that true freedom begins at home and how we live greatly affects our lives. That's why it is our goal to constantly develop and deliver complex interior solutions - matching collections of furniture, doors, floors and wall systems. We believe that a beautiful and functional interior is the beginning of a happy home where everyone can be themselves.

INTERIOR CREATION TOOLS

Check out our original platform for creating and arranging interiors - VOXBOX. It's a simple and intuitive on-line app for designing interiors. Try out different furniture layouts and see how they can be positioned in your room. Post your project and share it with your friends and family. We have also created intuitive configuration tools for chosen collections available at voxfurniture.com. Thanks to them you can decide on the final look of your furniture

VOX DESIGNERS

At VOX we know that the more talented people there are, the more brilliant the ideas. That's why we work on our designs in teams. We invite talented designers to join our creative exploration and let thoughts and needs materialise into beautiful, useful objects.

ŁUKASZ STAWARSKI, BARTŁOMIEJ PAWLAK

Two talented brains come up with many brilliant ideas. Łukasz and Bartłomiej are a designer duo working at the Pawlak & Stwarski studio since 2014. They differ in their work approach but have one thing in common - they are both exceptionally talented. They design furniture, lamps, crockery and even medical equipment while collecting awards like, 'Dobry Design' (Good Design) for the Nest multibed.

WIKTORIA LENART

Wiktoria Lenart is a graduate of Industrial Design at Wrocław Academy of Fine Arts and Wrocław is the lucky city where this designer shares her knowledge and skills at the Academy of Fine Arts working as a junior lecturer. When she's not teaching, she's putting her heart and sense of beauty into her furniture designs. The world appreciates it - Wiktoria's bed design for the Spot collection was awarded with one of the most prestigious awards: the IF Design Award.

TABANDA

Three is a magic number, and our magic three is Tabanda. The authors of the Nature collection: Megi, Filip and Tomek create furniture based on subtle contrasts and unconventional pairings. They complement modern geometric shapes with nature-based motives and combine raw industrial accents with lively color palettes.

MARTA KRUPIŃSKA

What does Marta Krupińska think about when she designs? About everything that is most important for us at VOX. About functionality, simplicity, economy, precision, aesthetics, versatility. And most of all about people. Such thinking always ends well, e.g. with collections like Simple, Young Users or Lori.

JOANNA LECIEJEWSKA, PIOTR KUCHCIŃSKI

Joanna Leciejewska is a versatile designer, talented and titled. She has graduated from the Faculty of Interior Architecture and Industrial Design at the University of the Arts in Poznań. Whatever she touches, turns into gold: furniture, packaging, lighting, graphics. Her projects, presented at the exhibitions all over the world, can also be found at our showrooms. Piotr Kuchciński - designer and architect. He has graduated with honours from the Institute of Architecture and Physical Planning at the University of Technology in Poznań. The author of urban designs and public utility buildings. Joanna Leciejewska and Piotr Kuchciński have designed 4 You collection together.

THE WORLD OF VOX COLLECTIONS

When designing our collections, we follow your needs. Go to voxfurniture.com and check out the videos presenting Simple, 4 You, Nature, Spot, Young Users and Nest. Meet the designers behind the collections. Find out what the creative process looked like and what challenges they had to overcome to create furniture matching your needs. Discover the functionality of our products, see the clever solutions they contain. Get inspired and create a beautiful interior to fit your needs and lifestyle.

RIBBON

For those who appreciate beauty and want to be surrounded by it. We have prepared something special for those who don't just enjoy functionality but also the appearance of objects. The geometric shapes of the Ribbon collection will bring a new lighter dimension to your interior. If you believe that both beauty and elegance come from simplicity and you would like to smarten up your interior, you couldn't have come to a better place.

Feeling overwhelmed by the weight of traditional shelves and bookcases? Ribbon, thanks to its numerous openings, will give you a feeling of space. The bookcases will display your favourite objects: books, flowers or souvenirs from your journeys.

The coffee table modules can be freely put together and easily moved around.

Coffe tables

A GENTLE CONNECTION

Ribbon will add a new twist of sophistication to your familiar living room or home office. Like a work of art, it will draw the looks of your guests. Warning, it could become your favourite furniture piece.

You don't have to go all it right away. The Ribbon collection furniture pieces look great solo, too. The elaborate bookcase will beautifully blend in with an already arranged interior.

NEW ORDER

The ready-made elements of the Ribbon collection are made using a unique technology: they are in the form of a ribbon with soft, subtle edges. The openwork shapes will bring order, clarity and balance to your interior.

SIMPLE

The Simple collection furniture can be arranged in many ways, putting together colors and choosing the legs. Everything fits together here. We have checked it, and we know that any possible configuration looks great. Thanks to Simple you can create different interiors, all according to your taste and needs.

A TABLE THAT CAN MEASURE UP TO ANY PARTY

From a handy, round 4 seat table, it extends to one that can fit 8 guests (from 1.1m to almost 2.5m). The round shape balances the geometrical shapes in this collection and provides a warm, family-friendly atmosphere.

FURNITURE YOU CAN COUNT ON

The designer has calculated, measured and double-checked everything so that we know what is used where and when in the house. And so we created some of the most thought-through and helpful furniture pieces. The liquor cabinet's folding doors save you space and grant easy access to everything inside. It can also serve as a tall TV unit. The tables with discreet drawers will fit all remote controls, chargers and other bits and pieces we usually have no room for.

IN THE BEDROOM EVERYTHING RESTS WHERE IT SHOULD LAY

The Simple bed will adjust to your interior. You can choose one of the five available widths: from 90 cm to 180 cm. Under the foldable frame you can store extra linens. The upholstered cushion hanging on the headboard will allow you to unwind before sleep as you read your favourite book. Don't forget to choose the best mattress for yourself.

SHINE ON, YOU BEDSIDE TABLE! IT SHOULD LAY

A good bedside table puts all the little things in order. That's why in the Simple table you will find a recess and a matching functional slat with room for your phone, a picture frame, or notes. In the recess, you can also hide a power strip with wires and cover it using a neat oak lid. The warm discreet lighting in the top drawer will make it easier to find things. All you need to do to switch on the light inside is touch the tabletop.

A VERY ACCOMMODATING WARDROBE

With a wardrobe like this all things will fall into place, and thanks to a backlit inside they can then be easily found. Handy folding doors don't take much space and allow to access everything quickly. The inside has been designed to fit all kinds of clothes and shoes. If you want to change the original layout of shelves and hangers, it's simple. Within moments, you can adjust their heights. Simple offers you four kinds of wardrobes: from a 1-door wardrobe, through a corner wardrobe to a spacious 4-door wardrobe.

ALL IS SOUND WHEN THE INTERIOR IS IN HARMONY

Once and for all we have solved the problem of tangling wires by creating a clever organizing compartment in the TV unit. Nothing can be seen but everything can be heard. A living room could also use a well-organised liquor cabinet. When you open the folding door, the light goes on. Special grips will protect your wine glasses and the sliding shelf makes space for putting aside your drinking glasses.

HOMework

Any work will be done easier and more pleasantly in a well-organized space. The height of all shelves in the bookcase can be adjusted to the size of the objects you want to store on them.

Wide bookcase

WE MEASURED UP TO THE DESK

The designer has measured all the most commonly used office supplies and adjusted all the desk's dimensions: the volume of the drawers, the height of the shelves, the depth of the cabinet, the size of the desktop. She also checked what you usually keep on top of your desk and created the perfect storage system: a functional slat. Choose the best set for yourself at voxfurniture.com.

A TIMELESS AND AGELESS COLLECTION

There is nothing difficult for the Simple collection. Even arranging a teenager's room is a piece of cake. For a child's room you can choose a smaller bed and a desk adjusted to the size of the little users.

SMART BOARD

Regardless of how big your home is, there is always the problem of storage and organizing your space. And somehow the things we need most often, most often get misplaced. Keys, phone, glasses, notebook, planner and - most importantly - notes left for the other family members. The cleverly designed Smart board answers all these problems. It will help you enjoy a perfectly organized space, where every item has its place. Just buy the Smart board and define its functions yourself with the choice of accessories for all situations.

YOUR EVERY MOVE WINS

The Simple collection furniture can be arranged in many ways, putting together colors and choosing the legs. Everything fits together here, every configuration looks great. Thanks to Simple you can create different interiors, all according to your taste and needs. How is it possible? Simple was created according to the ten iconic rules of design by Dieter Rams, where less is more and a product gives the user space to realise their own ideas.

CONFIGURE YOUR FURNITURE IN 4 STEPS AT VOXFURNITURE.COM

STEP 1:

Choose the body
Choose one of the four available colors:

NATURE

Nature was inspired by the love of natural materials and the conviction that any space can be wisely and beautifully used. Nature will easily match all kinds of interiors: large open spaces, classically divided into rooms or even the smallest ones that require great care when being arranged. The solid shapes can fit a lot in and the slanted wooden legs carrying them will add lightness to the room.

IT'S WOOD, NATURALLY

Nature was inspired by the love of natural materials and the conviction that any space can be wisely and beautifully used. Natural materials change and mature together with us. Being with you every day, an oak tabletop gathers stories about your family and can trigger your memories. The metal recess is a handy place for herbs, spices and after covering it with a metal lid, you can rest hot pots on it.

**must
have**
SELECTED BY LOOZ DESIGN FESTIVAL 2017

Must have is a prestigious award for the best Polish designers. It's a badge of quality given by the Council of Experts associating top design experts. It's a consumer recommendation - the awarded piece is worth having.

DIVIDE AND CONQUER THE DECOR

It takes skill to divide a large space without closing it but rather opening it for many new possibilities. The two-sided bookcase will subtly divide large spaces for different functions.

MULTIPLE SOLUTIONS

Live and mix: put wider pieces together with two-sided ones; the fully closed ones with the open or two-sided. Choose the front colors: white will bring in Scandinavian minimalism, oak will give the interior more warmth.

FACING LARGE SPACES

Putting together even the most different pieces from the Nature collection will let you enjoy a coherent and harmonious interior. Using two different harmonizing front colors will break the monotony, which works great for large spaces.

Coffee table

A dresser, during the day, can be used as a small desk. In the evening, you can use it to get ready for an important night with the help of a mirror hidden under the surface of a slow drop-down table top. Put on a lovely dress from the spacious three-door wardrobe and you are ready!

Dressing table

CLOSE TO NATURE

Oak headboard and wooden legs introduce to this exceptional room a sense of tranquillity. Thanks to subtle colours and delicate aesthetic treatments, all furniture in Nature bedroom will make it your favourite room in the house.

FRAME

Frame is a collection for people who dream to have both an elegant interior and furniture that will last many years. Thanks to its universal color palette we have managed to achieve a timeless visual effect whereas the solid materials and construction will grant the furniture's durability. The backlit display cabinets liven everything up with a warm glow. The marriage of black with natural wood colors will give the interior an elegant look. Within the Frame collection, you will be able to decorate your sitting and dining room.

FREEDOM OF CHANGE

Thanks to sliding doors, you can decide what will be on display in the open spaces and what will be hidden. At any time you can move the doors and your bookcase will always look elegant.

Wide bookcase

Bold, creative and versatile. Our designers Joanna Leciejewska and Wiktoria Lenart fear no challenges - they deconstruct the traditional understanding of furniture, give the user freedom to modify it individually. The projects they create win the most important awards: from Dobry Wzór through must have, and finally Designer of the Year (Joanna) and IF Design (Wiktoria).

ATMOSPHERIC AND ELEGANT

Backlit glass cases can give your interior a sophisticated atmosphere thanks to the warm light tones. It's something that will surely impress your guests. The cases can be put together with one another or with a bookcase for an enhanced effect. The system is equipped with soft close glass doors. The discreet LED lighting will fill your interior with a warm glow.

Thanks to the glass case's unique construction, the displayed object can be seen from three sides. The tinted glass gives it a more sophisticated look. The glass case is available in two options: left or right. It also looks great when put together with the bookcase.

COZY AND WELCOMING

The Frame table will fit in a small space, inviting everyone for a tasty morning. In the evening, when the guests arrive, it can be extended so that it will fit up to 14 people. Extending the table is easy and comfortable thanks to the guiding rails mechanism. In three steps you will extend it to the needed size.

SPOT

Spot will charm you with its light, elegant form and help you organize your bedroom, living room and dining room. Slender geometric shapes in natural colors offer plenty of space for things you don't want to have on display. Clever solutions and ergonomic shapes are a perfect foundation for a little bit of flair such as your favorite accessories like blankets, cushions, books or crockery.

PURE PLEASURE AND COMFORT

Spot brings much more into your dining room than just a unique look. The comfortable table on wooden legs can be extended to a chosen length. How many times have you lacked space for spices, napkins or cutlery? The practical compartments in the middle of the tabletop are the perfect space for all dining room bits and pieces.

COUNT ALL THE STOOLS

Brilliant solutions are Wiktorja Lenart's trademark. The Spot stools stacked one on another make a clever chest of drawers clearing the floor. The tall glass case will perfectly complement your dining room decor.

SPOT ADJUSTMENTS

When you want to rest, there's no better room than a Spot bedroom. Spacious wardrobes, chests of drawers, compartments in the headboard of your bed - Spot will fit in more than just your dreams.

You'll find lots of space for your favorite books and other things on the Spot shelf. The headboard with removable upholstery is slanted at an optimal angle. You'll appreciate its comfort once you start using it.

4 YOU

Comfortable during day and night, cozy when you're alone and welcoming when your friends come to visit. 4 You furniture will allow you to arrange all of the most important spaces of your home: your bedroom, living room, dining room and your child's room.

WHO SAID THAT A BED IS ONLY FOR SLEEPING?

Over two hundred people, including psychologists and ethnographers, worked on creating the final shape of the 4 You bed. Nevertheless, as the designers Joanna Leciejewska and Piotr Kuchciński stress, the input of users and their expectations towards the bed's functionality played the key role in the process. The whole 4 You collection was designed based on such thinking.

YOU WILL NOT WANT TO LEAVE THE TABLE

This table supports your passions! The especially designed recess in the middle of the table and drawers underneath the tabletop help organize and store little things. Fresh herbs in pots and the possibility of heating meals will encourage you to celebrate and cook together with friends and family.

A TABLE TO MEASURE UP WITH OUR TIME

A large modern table is much more than a dining place. It's the center of gatherings, studying, talking and family entertainment. Indispensable.

MORE OPTIONS FOR YOU

Meet the new gray-colored 4 You option. By joining it with the classic white you gain more possibilities. You can easily divide zones in rooms and make your home decor more versatile.

YOU MIX IT AND IT FITS

The gray and white 4 You can be mixed with other collections too. To make it easier for you, we have introduced boxes in colors matching the Balance palette.

Small box

IT'S MORE THAN JUST A WARDROBE

This wardrobe can be your boudoir. Comfortable folding doors will give you easy access to your clothes. So will the extendable hanger bars for shirts and shelves with bars.

A SPACE AS CLEVER AS YOU!

The many functionalities of 4 You make it a perfect fit for different kinds of interiors.
 The multifunctional bed can be both a resting spot and a comfortable work zone.
 The home library is at your hand's reach - just connect the headboard with a bookcase.

The dressing table piece can rest upon a low chest of drawers or a two sided bookcase.
 The height of the tabletop is also comfortable for work and the functional shelf on the side makes it a classic desk. On the solid surface you can place a mirror or a mobile organiser - two accessories especially designed for this piece of furniture.

BALANCE

What kind of an interior do you wish to create? Do you dream of peace and harmony, or do you combine creative chaos with your everyday life and aren't afraid to go a little wild? Do you need a space for focused work, a comfortable relax zone or are you designing a dining area? No matter what the answer is, the Balance collection will meet your expectations. Balance is an innovative system that gives you the freedom to create unique furniture designs starting at your dining room, through to your living room ending at your office.

THE FREEDOM OF CREATION

The designers Joanna Leciejewska and Wiktoria Lenart made sure that the appearance and functionality of the Balance system depend only on your imagination. Choose your colors, define functions and freely combine its elements without the use of screws or bolts.

The Balance system allows you to build bookcases, chests of drawers, TV cabinets, lockers and closets. The boxes have classic doors opened with the push latch system and can be placed any way you want.

Bookcase

The Balance collection also contains tables: square, rectangular and round. You decide which one will best complete your interior arrangement.

SELECTED BY LODZ DESIGN FESTIVAL 2017

The Up&Down chair, designed by Joanna Leciejewska, comes in two options: with or without the adjustable seat. The natural wood the chair is made of makes it a special decoration to any interior.

1. Choose the boxes and the base (long or short).

2. Glue pieces of anti-slip mat onto the boxes.

3. Build your furniture by placing the boxes and shelves on one another.

4. Secure the furniture to the wall.

IT'S SO EASY!

Building unique furniture can be exceptionally easy. The Balance system is based on a few key modules that give unlimited possibilities of creating individual solutions. See for yourself, you won't even need a screwdriver.

SET UP YOUR BOOKCASE

Feel like a real interior designer. Check out the possibilities of the Balance collection. Use the VOXBOX tool at voxfurniture.com and arrange your space.

The prestigious TOP DESIGN award confirms the extraordinary design quality of the product. An independent Jury of international design experts evaluates the competing products. The goal of the awards is to promote excellent design of European standards.

UNIVERSAL COLORS

The Balance Collection color palette combines natural wood color bases and shelves with black, white or gray boxes and will fit into any interior.

CUSTOM

We're all here. We're resting, lounging, watching a movie with friends. Our living room is a common space that has to meet many expectations. And when a sofa isn't enough, Custom comes to the rescue. The module leisure set can be freely put together or taken apart. You need three separate armchairs? Or maybe two small sofas? Within a few minutes you can completely change your living room.

ARRANGE IT AS YOU PLEASE

Joanna Leciejewska designed Custom so that you can freely shape your interior by joining and separating the modules. By using different colors and textures of the cushions, you can create new designs.

AND WHAT ABOUT THE TABLE?

It doesn't like to be put aside. It does all it can to be at hand. Its top, cleverly divided into four parts, hides useful compartments. It's the perfect place for little bits and pieces that you always find handy, but don't want on display. One part of the tabletop can be lifted to make a comfortable, hovering table. Practical holes on the top will allow your laptop to breathe with ease.

LORI

Every day brings you more important things that are difficult to part with. Thanks to Lori, all these things will find their place either hidden or displayed, always at arm's reach. In your office, living room or home workshop - Lori will help you keep things tidy.

A longer wall? You can extend the bookcase so that it looks like it's made to size. Thanks to its three colors, Lori allows for original arrangements. Gray oak, cashmere and graphite blend in well with other furniture and rooms. The bookcase harmonica has all three of them.

Bookcase harmonica

WHERE WILL I PUT ALL THIS?

A table that extends is a godsend when guests come to visit. Especially if you can easily extend it yourself. The recess in the middle of the tabletop is a perfect spot for keeping cutlery, napkins or decorations. You know best yourself what to put there.

The capacious sideboard will surprise you with many practical solutions and will help keep your dining room tidy. The boxes on its doors are as practical as the ones in your fridge. The whole bottom is open, so you can safely store bigger and heavier items there.

CREATIVE ORDER

When things pile up in your office, it's difficult to keep focused. In Lori, Marta Krupińska designed lots of adjustable shelves, drawers on wheels and even a handy ladder that will allow access to the top sections of your bookcase. And what you need always at hand, you can store in the wooden boxes.

YOUNG VOX

At VOX we care about balanced development of children and youngsters at all aspects of their lives. We carefully watch young people to design furniture that will keep on inspiring them. The youth collections don't offer ready, boring solutions. It's furniture that encourages to explore and create. It additionally grows with the users and allows them to change the colors, sets and general appearance. It allows to experiment, rearrange, tinker, tamper and to look for surprising solutions. Thanks to his feature, children can build their own worlds full of hideouts and dens.

STIGE

Climbing, getting to inaccessible places - this the way toddlers learn and get to know their surroundings. Older children are already creating their own worlds and want to decide about their shape. Stige is a collection of modular furniture, which enables children to build their first room, fully adapted to their needs.

The ladders are bridges to fantastic adventures for the youngest. The construction of ladders inspired the Stige collection designers to create exceptional furniture for young people. In Danish and Norwegian 'stige' means 'ladder', but it also means to "grow" and "go up". Bartłomiej Pawlak and Łukasz Stawarski have designed a space facilitating constant development and creative findings.

TWO HEADS ARE BETTER THAN ONE

A room for two children needs a well-organized work area. A desk ladder is the answer. Additional support will be provided by spacious cubic shelves that can be installed on the sides of the desk on specially designed wooden frames. If children want to have more contact with each other, hang the accessories and organisers in a different place of your own choice.

The sleeping area should be equally comfortable. A sofa with a ladder and a pull-out lower bed will be perfect when our children invite their friends to their world.

Couch with ladder and lower bed

COLOURFUL NEEDS

Every parent of a teenager knows how important colour can be. Pencil case, rucksack, T-shirt decisions are never accidental. Not to mention the design of the whole room! Furniture from Stige collection give the opportunity to create different types of interiors adjusted to colour preferences of your child. If you decide on a universal base i.e. white cabinets and pinewood handles, with pistachio cubic shelves and delicate grey cupboards, you can create a subtle and girlish world.

Container for desk

Cubic shelf

Stige colour palette in combination with a wide range of accessories will give your child's space an individual character. Cubic shelves with hooks may be hung wherever on the ladder, e.g. to build a dressing table or a small library. Denim organisers will care for a stronger colour accent and help to organize the creative chaos.

BRICKS'N'BLOCKS

Beloved, hand-decorated piece of furniture that belongs only to your child can become a real kingdom. Some teenagers prefer to keep their desk clean, other choose a comfortable area to work on the sofa. Stige furniture can change and adjust to every idea - they can satisfy even the most demanding young owner.

A wide selection of modular solids in different colours results in the possibility of creating monochrome arrangements or more powerful colour mixes. You can connect the individual modules with each other with metal parts and secure it by attaching the whole construction to the wall.

SIMPLE YOUNG

The simplest solutions are often the best. Simple collection, great for the adult world, is also functional in the company of notebooks, balls or skateboards. The intuitive configurator allows you to create a colour composition adapted to the child's room and, at the same time, consistent with aesthetics other rooms.

TIMELESS COLLECTION

There is no hard task for Simple collection. Furnishing a teenage room is a child's play. All you need to do is choose a smaller bed and a desk that suits the size of the young users.

NEST

Childhood is the time of unlimited imagination. In order to keep it so in your adult life, it must be nurtured from an early age. The Nest Collection is a safe micro-world that allows the youngest for creative fun and learning and facilitates creative search and expression of emotions for teenagers. All for children so they could boldly create their dream world.

FURNITURE JUST LIKE ME

Our designers know that change is a natural element of development. A young person, in particular, needs his/her own private place, which belongs only them and changes with them. Nest collection will surround a vibrant child with warmth, will keep up with the first school responsibilities, and, after a few years, it will become a companion of a smart teenager. I HAVE CLEANED THE ROOM, HAVEN'T I?

Maintaining order in the crazy world of a teenager is not one of the simplest tasks. With chests of drawers on wheels, hangers and wardrobes with separate compartments, this becomes a lot easier. Arrange, hang, hide and no trace of mess.

The award is given annually by the magazine „Dobrze mieszkaj” [Live well] and dobrzemieszkaj.pl portal for the best home décor products. The jury comprises of more than 130 Polish architects and designers.

CONCEPT

You need an idea for a teenage room? Concept collection can fit all the teenage stuff. And when your child wants a change, it's enough to replace colour fronts and a new room is ready.

AESTHETICS HAND IN HAND WITH COMFORT

The collection is designed on the basis of simple geometric divisions. This makes the interiors with Concept furniture interesting and minimalistic.

SIMPLE CHANGE BIG EFFECT

A strong accent changes everything. Blue, red, saffron and oak decor - select the front colour and bring a new character to your interior.

SPOT YOUNG

Spot Collection is an invitation to the world of children's play. Inspired by the hours spent in the playground, on swings, building bases and playing hide and seek, it brings energy and dynamics to the room. Slender solids and hanging organizers make the interior of the Spot room lighter and subtle.

DESK AT THE CENTER OF ATTENTION

A two-sided desk will work well both for siblings and four friends playing board games. You don't have to place the desk in the corner or at the wall. You design your room and you decide which spot is best for playing, studying and working.

Can a bed be at the same time a place to sleep, a bookcase and a wardrobe? Of course! This belief is shared by the designer of the collection - Wiktoria Lenart. Check how many functions can a Spot bunk bed offer - storage for clothes, two mobile hangers and two bookshelves. This bed has won one of the world's most important awards - iF DESIGN AWARD 2015 in the Home Furniture category.

Two-sided desk

Swivel chair Jungle

Tipi tent

To complement the collection, we have also designed a classic sofa and bed 90x200 cm with a wheeled Tipi . It is possible to hang fabric over it as an inspiration for young children to create the first Indian wigwams, and for teenagers the way to separate their own personal area. At the bottom of the sofa a drawer can be installed or pull-out bed as an additional sleeping area.

YOUNG USERS

It would seem that the world of adults and the world of children are conflicting elements. Thanks to the Young Users collection, these two worlds have finally found a middle ground with lots of nooks and crannies. And there is a reason to say that this is the world's most personal furniture. It grows together with the user. And a big number of colourful and graphical fronts will allow even the most demanding teenager to create a dream room.

SHOW WHAT YOU CAN DO

A complete room change in a few simple steps? With Young Users - it's not a problem. Cartoon or graphical fronts can be easily installed on the cupboards. They can be repositioned at any time. There are so many types of overlays that everyone can find something for themselves.

EVERY DAY NEW TALE

The corner desk available in Young Users collection allows you to optimally utilize every centimetre of the child's room.

The shelf has been designed by the students of the Poznań School of Form as part of Industrial Design major.

YOUNG USERS ECO COLLECTION

For all those who already live in the Young Users room and for those who are just thinking about opening their spaces for creativity. We have created a new world. The designer, Marta Krupińska, drawing her inspiration from nature, added some new elements which completely change the character of a well-known collection.

White platforms on which the whole world of Young Users is based, can be used as a bench or a place for your homemade ecosystem.

FINISHED STUDYING? TAKE A BREATH AND RELAX

The innovative shape of the crawling mattress guarantees a comfortable rest when lying down or reclining, after folding it. It also has a comfy and healthy back support.

OKEY-DOKEY

Good organisation of space is essential. In particular in a child's room that many have to face many challenges. A spacious wardrobe will facilitate the storage of clothing. The corner wardrobe is excellent for small rooms. School utensils and toys can be comfortably stored in large drawers and cabinets of a clever desk.

Having been honoured with the prestigious TOP DESIGN AWARD trademark, confirms the outstanding design quality of the product. The products, taking part in the competition, are assessed by an independent jury comprising of international experts in the field of design. The purpose of the competition is to promote excellent design at the European level.

THE RULE OF CONTRAST

The world belongs to the brave! Combining black fronts with oak, you get a strong effect that will work well in the space for creative tasks. An orderly interior is an orderly thought. Geometric shelf fillers not only help you to organise the space, but also give character to the entire interior.

Oak geometric organisers will add variety to the black-and-white composition. You can also add several grey fronts and a new room is ready!

EVOLVE

Individuality, creativity and innovation are the essence of Evolve collection. This collection will awaken your child's passion for creation. It's more than just furniture.

FURNITURE DIFFERENT THAN OTHERS

A clever cabinet matching the couch will help save space. Rubber bands attached to the fronts of the cabinets allow to decorate them with pictures and accessories.

Couch with movable desk, bookcase and cabinet

See how the Evolve couch changes. The wardrobe, desk and bookcase cooperate with the couch but can also function on their own. The tippable mattress hides a practical container for linens. The lower couch drawer can fit an extra bed. The desk on wheels can always be moved somewhere else. The headboard cabinet contains a spacious cargo area with organizers.

SMART

We have designed Smart collection drawing on the knowledge of psychologists, ethnographers, sociologists, but above all, parents and children. That's why the youngest love it so much! Assembling Smart furniture is fun on its own. The assembly manual has been designed in the convention of a simple game to stimulate creativity and enjoyment of the whole family.

FURNITURE THAT DOESN'T HINDER YOUR IMAGINATION

Meet the furniture that changes along with its owner. This collection is aimed for both younger schoolchildren but also older adolescents. As the designer, Marta Krupińska says, this furniture's special quality is the possibility of change - not just through changing its appearance but also by adjusting it to their exact height, age and expectations.

Its height can be regulated according to the child's height. The high bookcase overlooks everything and can store your child's books and other items.

LORI YOUNG

The Lori collection is now also available for young people. Universal solids will allow you to arrange a room for both girl and boy. This line also includes furniture for the dining room, living room and study. Neutral greys and browns will provide the perfect background for colour accessories, chosen personally by your child.

CREATIVE ORDER

When arranging a teenager's room, the functionality of this space is crucial. Desk with drawers, a place for books, notebooks, electronic gadgets - the designer thought about all of this. She has designed a young version of Lori collection. Design: Marta Krupińska

BABY VOX

We believe that the space around us has a direct impact on us; beautiful and creative surroundings help us develop and grow more sensitive. That's why we want to create the best possible environment for children, where they will be able to freely grow and become great people. Our furniture and accessories have been designed to welcome a little human into your house with safety and comfort.

WE PLAY AND LEARN

A Tuli room is a place where the child can discover the world on its own. Everything is adjusted to the little hands and constantly developing mobility. Tuli tables and stools can move with you around the whole house to make playing together easier. The Tuli collection, designed by Joanna Leciejewska, was awarded the Must have 2018 title. It's a very prestigious award given by an independent Board of Experts comprising representatives of the most important Polish centers of design and media.

SIMPLE

At the earliest stages of their development, a child needs closeness. The universal Simple bed can be attached to any adult bed so that your little darling is at your hand's reach. Additionally, the whole collection grows together with your child, accompanying them at all stages of their development. Try different front colors, choose the legs and handles to create the perfect room for your child.

Every parent knows that time flies - before you notice, the baby cot will be transformed into a handy bed for a bigger child.

A SAFE SPACE THAT SUPPORTS GROWTH

Choosing VOX you can be certain that the furniture will suit your needs. It's because we first carefully study those needs so that in the designing process we can create safe and beautiful furniture that will also grow with your child.

COZY AND BEAUTIFUL

Simple, graceful shapes, excellent quality materials and an interesting color palette make the Lounge, Vintage, Altitude and Mitra collections suitable not just for a child's room but also for the parents' bedroom or even the living room.

UPHOLSTERED FURNITURE

For many of us, furniture that allows you to rest on it is the most important. Sofas, armchairs, pouffes, footstools, chaise longues - we love them because they let us catch a breath and have a moment just for ourselves.

ALMA

The Alma collection combines classical elegant quilting and modern simple form and construction. Something beautiful and comfortable for any interior. The collection contains: a 2-seat sofa and an armchair.

PIQUE

Simple shapes gain original character thanks to the Chesterfield style quilting while wooden legs add lightness and make cleaning easier. The functional backrest can be gradually lowered until completely flat. The collection contains: a 3-seat sofa, a convertible sofa, an armchair, a small pouffe and a large pouffe.

MODUS

You can place the furniture from the Modus collection the way you find the most comfortable. It's a modular system which allows you to choose the final shape of the corner sofa along with its functions. You can put together: a chaise longue, a sofa, corner modules, an armchair or a pouffe. The discrete fixing system has been placed at the bottom. The collection contains: a corner sofa, a 1,5-seat sofa module, a chaise longue module, a single module with a side finish, a corner module, a large pouffe.

COTTA

The soft, deeply quilted corner sofa from the Cotta collection is the perfect solution for small flats with no separate bedroom. In larger spaces it will provide extra sleeping space for guests. The collection contains: a corner sofa, a convertible sofa, an armchair, a pouffe.

LOFT

The armchair and pouffe from the Loft collection are so stylish that every epoque would like to claim them. It's absolutely timeless furniture. The collection contains: a sofa, an armchair, a pouffe.

GRANT

The natural woolen upholstery and cozy shape make the Grant armchair the perfect spot for your afternoon nap. The stable wooden legs, the slightly slanted seat and the footstool right under your feet guarantee relaxation as good as deep sleep. The collection contains: an armchair and a footstool.

UPHOLSTERED FURNITURE

Everybody likes to rest a little bit differently. That's why we made our upholstered furniture available in a few dozen types and colors of fabric. You can also choose the color and shape of the legs.
